Short-term Psychotherapy and Emotional Crisis Peter Emanuel Sifneos, 1972 Peter Sifneos describes a type of active

and brief psychotherapeutic intervention which he believes is tremendously useful for selected patients with circumscribed emotional difficulties. The therapist assists the patient in defining the conflict underlying his dilemma and helps him learn to solve his emotional problems. As a result of this novel educational experience, the patient is able to use these newly acquired techniques to deal with other hazardous situations after the end of treatment. Indeed, the author maintains, the treatment is similar to an immunization procedure that enables certain individuals to prevent the development of emotional difficulties in the future. Dr. Sifneos describes two forms of this short-term therapy, crisis-intervention and anxiety-provoking--with emphasis on the latter--and presents in detail the theoretical background, criteria for selection of appropriate patients, technique, and illustrative case material.

Oxford Textbook of Palliative Nursing Betty Rolling Ferrell, Judith A. Paice, 2019-03-04 The Oxford Textbook of Palliative Nursing remains the most comprehensive treatise on the art and science of palliative care nursing available. Dr. Betty Rolling Ferrell and Dr. Judith A. Paice have invited 162 nursing experts to contribute 76 chapters addressing the physical, psychological, social, and spiritual needs pertinent to the successful palliative care team. Organized within 7 Sections, this new edition covers the gamut of principles of care: from the time of initial diagnosis of a serious illness to the end of a patient's life and beyond. This fifth edition features several new chapters, including chapters on advance care planning, organ donation, self-care, global palliative care, and the ethos of palliative nursing. Each chapter is rich with tables and figures, case examples for improved learning, and a strong evidence-based practice to support the highest quality of care. The book offers a valuable and practical resource for students and clinicians across all settings of care. The content is relevant for specialty hospice agencies and palliative care programs, as well as generalist knowledge for schools of nursing, oncology, critical care, and pediatric. Developed with the intention of emphasizing the need to extend palliative care beyond the specialty to be integrated in all settings and by all clinicians caring for the seriously ill, this new edition will continue to serve as the cornerstone of palliative care education.

The Status of the Translation Profession in the European Union Anthony Pym, Claudio Sfreddo, Andy L. J.

Chan, François Grin, 2014-12-01 Based on thorough and extensive research, this book examines in detail traditional status signals in the translation profession. It provides case studies of eight European and non-European countries, with further chapters on sociological and economic modelling, and goes on to identify a number of policy options and make recommendations on rectifying problem areas.

The Translator's Invisibility Lawrence Venuti, 2012-06-25 Since publication over ten years ago, *The Translator's Invisibility* has provoked debate and controversy within the field of translation and become a classic text. Providing a fascinating account of the history of translation from the seventeenth century to the present day, Venuti shows how fluency prevailed over other translation strategies to shape the canon of foreign literatures in English and investigates the cultural consequences of the receptor values which were simultaneously inscribed and masked in foreign texts during this period. The author locates alternative translation theories and practices in British, American and European cultures which aim to communicate linguistic and cultural differences instead of removing them. In this second edition of his work, Venuti: clarifies and further develops key terms and arguments responds to critical commentary on his argument incorporates new case studies that include: an eighteenth century translation of a French novel by a working class woman; Richard Burton's controversial translation of the *Arabian Nights*; modernist poetry translation; translations of Dostoevsky by the bestselling translators Richard Pevear and Larissa Volokhonsky; and translated crime fiction updates data on the current state of translation, including publishing statistics and translators' rates. *The Translator's Invisibility* will be essential reading for students of translation studies at all levels. Lawrence Venuti is Professor of English at Temple University, Philadelphia. He is a translation theorist and historian as well as a translator and his recent publications include: *The Scandals of Translation: Towards an Ethics of Difference* and *The Translation Studies Reader*, both published by Routledge.

W. G. Sebald Scott Denham, Mark McCulloh, 2008-08-22 The novelist, poet, and essayist W. G. Sebald (1944 - 2001) was perhaps the most original German writer of the last decade of the 20th century ("*Die Ausgewanderten*", "*Austerlitz*",

“Luftkrieg und Literatur”). His writing is marked by a unique ‘hybridity’ that combines characteristics of travelogue, cultural criticism, crime story, historical essay, and dream diary, among other genres. He employs layers of literary and motion picture allusions that contribute to a sometimes enigmatic, sometimes intimately familiar mood; his dominant mode is melancholy. The contributions of this anthology examine W. G. Sebald as narrator and pensive observer of history. The book includes a previously unpublished interview with Sebald from 1998.

Moody Minds Distempered Jennifer Radden, 2009-01-12 In *Moody Minds Distempered* philosopher Jennifer Radden assembles several decades of her research on melancholy and depression. The chapters are ordered into three categories: those about intellectual and medical history of melancholy and depression; those that emphasize aspects of the moral, psychological and medical features of these concepts; and finally, those that explore the sad and apprehensive mood states long associated with melancholy and depressive subjectivity. A newly written introduction maps the conceptual landscape, and draws out the analytic and thematic interconnections between the chapters. Radden emphasizes and develops several new themes: the implications, theoretical phenomenological and moral, of recognizing melancholy and depressive states as mood states; questions of method, as they affect how we understand and characterize claims about melancholy and depression; and the persistence and force of cultural tropes linking such states to brilliance, creativity, and sagacity. Insights from literature and the history of medicine, psychology, and psychiatry are woven together with those from the more recent disciplines of feminist theory and cultural studies. This is interdisciplinary writing at its best—part analytic philosophy, and part history of ideas.

Health at a Glance: Europe 2014 OECD, European Union, 2014-12-03 This third edition of *Health at a Glance: Europe* presents a set of key indicators related to health status, determinants of health, health care resources and activities, quality of care, access to care, and health expenditure and financing in 35 European countries.

The Bells in Their Silence Michael Gorra, 2009-01-10 Nobody writes travelogues about Germany. The country spurs many anxious volumes of investigative reporting—books that worry away at the German problem, World War II, the legacy of the Holocaust, the Wall, reunification, and the connections between them. But not travel books, not the free-ranging and impressionistic works of literary nonfiction we associate with V. S. Naipaul and Bruce Chatwin. What is it about Germany and the travel book that puts them seemingly at odds? With one foot in the library and one on the street, Michael Gorra offers both an answer to this question and his own traveler's tale of Germany. Gorra uses Goethe's account of his Italian journey as

a model for testing the traveler's response to Germany today, and he subjects the shopping arcades of contemporary German cities to the terms of Benjamin's Arcades project. He reads post-Wende Berlin through the novels of Theodor Fontane, examines the role of figurative language, and enlists W. G. Sebald as a guide to the place of fragments and digressions in travel writing. Replete with the flaneur's chance discoveries--and rich in the delights of the enduring and the ephemeral, of architecture and flood--*The Bells in Their Silence* offers that rare traveler's tale of Germany while testing the very limits of the travel narrative as a literary form.
