Smart Talent Management Vlad Vaiman, Charles Vance, 2010-01-01 . . . the editors have done a good job of bringing together a series of contributions which provide a useful and welcome expansion of the theoretical foundations of talent management through a knowledge management lens. David Collings, Personnel Review This book takes a fresh look at human talent in organizations, focusing on employees at all levels who represent key agents of knowledge management in acquiring, transferring, and applying important knowledge for competitive advantage. The overarching aim of the book is to identify, define, and explore the implementation of talent management strategies aimed at facilitating effective knowledge management in an organization. The contributors provide a valuable fusion of two important areas of emphasis for current research and practice in human resource management: talent management and knowledge management. They illustrate the immense significance of the latter to competitive advantage and organizational success in our rapidly changing global knowledge-based economy. The generation and acquisition of ideas and knowledge, their internal transfer and application throughout the organization, and the cross-border transfer of knowledge all through the effective management of human talent have become integral to contemporary management. The contributors examine planning and staffing, training/coaching, performance management, and organizational learning and development. Academics, human resource management practitioners and management consultants will find this volume valuable.

Leadership and Information Processing Robert G. Lord, Karen J. Maher, 2002-09-26 Using information processing and leadership perception processes the authors provide a much needed analysis of executive leadership, offering a theoretical and empirical basis for analysing this crucial element of organizational behaviour.

Human Resources in the 21st Century Marc Effron, Robert Gandossy, Marshall Goldsmith, 2003-04-30 New and faster technology, redefined values, and shifting customer demands are changing the way businesses operate in the twenty-first century. Human resources and business leaders are faced with the challenge of redefining their strategies on leadership, talent, and diversity, while evaluating their operational effectiveness. This book presents the compelling contributions of thought leaders-such as David Ulrich, Rosabeth Moss Kanter, and Jeffrey Pfeffer-who offer a road map for what these leaders can expect. Renowned HR executives also provide their expert advice and prescriptions for the future. The nature of human resources will continue to evolve as the new century progresses-with this book, HR professionals can change with it. Marc

Effron (Darien, CT) is the Global Practice Leader for Hewitt Associates Leadership Practice. His leadership work centers on helping organizations attract, develop and retain top leadership talent. Robert Gandossy (Redding, CT) heads Hewitt's Global Practice Leaders for Talent and has over twenty years' experience in human resources, leadership, and change management. Marshall Goldsmith (Santa Fe, CA) is a founding Director of The Alliance for Strategic Leadership, a consulting organization.

The Class Ceiling Friedman, Sam, Laurison, Daniel, 2020-01-06 Politicians continually tell us that anyone can get ahead. But is that really true? This important best-selling book takes readers behind the closed doors of elite employers to reveal how class affects who gets to the top. Friedman and Laurison show that a powerful 'class pay gap' exists in Britain's elite occupations. Even when those from working-class backgrounds make it into prestigious jobs, they earn, on average, 16% less than colleagues from privileged backgrounds. But why is this the case? . Drawing on 175 interviews across four case studies - television, accountancy, architecture, and acting - they explore the complex barriers facing the upwardly mobile. This is a rich, ambitious book that demands we take seriously not just the glass but also the class ceiling.

Sport in the City Chris Gratton, Ian Henry, 2002-09-09 Cities now seek to attract major sporting events and activities to re-image themselves, and frequently invest in community sports development to fund economic growth and regeneration. Including a range of case-studies from global (the Sydney Olympics) to local (urban school sports), this book looks closely at how sport has been used in contemporary cities across the world, and evaluates policies, strategies and management. Five key areas are examined: * sport and urban economic regeneration * sports events: bidding * planning and organization * Urban Sports tourism * Sport and urban community development * Urban politics and sports policy. Sport in the City therefore represents an essential resource for urban policy makers and the sports policy community. It will be invaluable reading for sports studies students and urban geographers.

Managing Across Cultures Susan C. Schneider, Jean-Louis Barsoux, 2003 A solid theoretical framework, thoroughly integrated with research, should provide students with invaluable insight into application in the real world and there is a framework for analyzing national culture which can also be applied to other cultural spheres - regional, industry, corporate and functional/professional - providing students with an understanding of how any business encounter represents the interaction of several cultural spheres. Case studies are drawn from around the world.

Handbook of Youth Mentoring David L. DuBois, Michael J. Karcher, 2013-04-30 This thoroughly updated Second Edition of the Handbook of Youth Mentoring presents the only comprehensive synthesis of current theory, research, and practice in the field of youth mentoring. Editors David L. DuBois and Michael J. Karcher gather leading experts in the field to offer critical and informative analyses of the full spectrum of topics that are essential to advancing our understanding of the principles for effective mentoring of young people. This volume includes twenty new chapter topics and eighteen completely revised chapters based on the latest research on these topics. Each chapter has been reviewed by leading practitioners, making this

handbook the strongest bridge between research and practice available in the field of youth mentoring.

The Employer Brand Simon Barrow, Richard Mosley, 2011-01-19 Levels of 'employer brand awareness' are rising fast across Europe, North America and Asia-Pacific, as leading companies realise that skilled, motivated employees are as vital to their commercial success as profitable customers and apply the principles of branding to their own organization. Starting with a review of the pressures which have generated current interest in employer branding, this definitive book goes on to look at the historical roots of brand management and the practical steps necessary to achieve employer brand management success - including the business case, research, positioning, implementation, management and measurement. Case studies of big-name employer brand stories include Tesco, Wal-Mart, British Airways and Prêt à Manger.

Quality Assurance in Higher Education Don F. Westerheijden, Bjorn Stensaker, Maria Joao Rosa, 2007-09-04 By bringing together leading experts on quality assurance in higher education from seven countries (from Europe, the USA and South Africa), this volume intends to go several steps further than most publications on the same subject. Containing comprehensive discussion of the most relevant trends in quality assurance regulation, translation and transformation, researchers and policy makers will find an engaged, academic reflection on how quality assurance is embedded in higher education and in a dynamic way to assess its impacts and potential improvements.

Motivation, Ability and Confidence Building in People Adrian Mackay, 2010-08-20 In order to get the best out of people in organisations, managers need to address the fundamental principals of people management: those of motivation, ability and confidence building. This proposed book aims to bring together clarity and understanding of these three main areas in one text with anecdotes and practical examples to enable managers to gain demonstrable improvements in organisational performance through their people. The material will be underpinned with just enough theory to establish a rationale for practice. While a highly practical text, the aim is to meet many of the learning outcome requirements of the Certificate in Management and Diploma in Management people management / empowerment modules

New Urban Configurations R. Cavallo, S. Komossa, N. Marzot, 2014-04-25 Urban areas have been caught up in a turbulent process of transformation over the past 50 years and changes have been rapid, with issues such as mobility, nature, water management, energy use and public space featuring prominently. In each Olympic year since 1988, the Faculty of Architecture at Delft University of Technology has held an international conference focusing on the connection between research and design, exploring the field of tension between science, technology and art. This book presents the proceedings of the latest in this series of conferences: New Urban Configurations, held in Delft, the Netherlands, in October 2012 in collaboration with the European Association for Architectural Education (EAAE) and the International Seminar on Urban Form (ISUF). This edition of the conference discussed the role and critical potential of the architectural project in the

transformation process of cities and territories that leads to new urban configurations. The publication contains all 140 accepted papers and a selection of the keynote lectures presented at the conference. The papers have been grouped into five main themes: innovation in building typology; infrastructure and the city; complex urban projects; green spaces, and delta urbanism. Four of these major topics are further divided into several subtopics. This book will be of interest to everyone involved in designing, building, thinking about as well as managing the urban landscape and territory.

New Trends in Psychobiography Claude-Hélène Mayer, Zoltan Kovary, 2019-08-06 This volume offers insights into contemporary trends and perspectives in psychobiographical research. It applies new theoretical and methodological frameworks and presents discourses on psychobiography from transdisciplinary backgrounds and various socio-cultural contexts, displaying the new state-of-the-art, new trends and themes in psychobiography. The book outlines psychobiography's outstanding contribution to psychology from 36 internationally reputable authors. It also presents the ideas of five outstanding psychobiographers through interview excerpts. This book is a must for researchers, lecturers and practitioners in the field of psychology and social sciences interested in the use of new psychological theories and methodologies in life-span research.

Global Trends in Human Resource Management E. Parry, E. Stavrou, M. Lazarova, 2013-02-05 Provides an understanding of how HRM policies and practices differ across countries and how the development of management practice may be affected by different institutional and cultural contexts. Containing contributions from a range of well-respected HRM scholars across the world, this collection is based upon data from a unique research project.

Self-initiated Expatriation Maike Andresen, Akram Al Ariss, Matthias Walther, 2013 Globalization and the development of multinational organizations have led to an increase in the number of people spending part of their lives living and working in foreign countries. While the contemporary literature has focused on organizational expatriates sent overseas by their employers, self-initiated expatriation is becoming an important area of study in its own right. This edited volume offers a holistic picture of self-initiated expatriation and the groups that pursue it, emphasizing many reasons for departure including career development and career capital.

Human Behavior, Learning, and the Developing Brain Donna Coch, Kurt W. Fischer, Geraldine Dawson, 2010-06-15 This volume brings together leading authorities from multiple disciplines to examine the relationship between brain development and behavior in typically developing children. Presented are innovative cross-sectional and longitudinal studies that shed light on brain-behavior connections in infancy and toddlerhood through adolescence. Chapters explore the complex interplay of neurobiological and environmental influences in the development of memory, language, reading, inhibitory control, and other core aspects of cognitive, emotional, and social functioning. Throughout, the volume gives particular attention to what the research reveals about ways to support learning and healthy development in all children. Illustrations include four pages

in full color.

Elton Mayo Richard C. S. Trahair, Abraham Zaleznik, 2017-09-08 The definitive biography of the life and work of Elton Mayo (1880-1949) is the first full, accurate account of the activities and intimate life of one of Australia and America's pioneering social scientists. Mayo, who established the scientific study of organizational behavior, was highly influential in American social science and business management theory, following his work at the Harvard Business School and the Western Electric Company.

Organization Theory Mary Jo Hatch, Ann L. Cunliffe, 2013 Organization Theory offers a clear and comprehensive introduction to the study of organizations and organizing processes. It encourages an even-handed appreciation of the main perspectives defining our knowledge of organizations and challenges readers to broaden their intellectual reach. Organization Theory is presented in three parts: Part I introduces the reader to theorizing using the multi-perspective approach. Part II presents different core concepts useful for analysing and understanding organizations - as entities within an environment, as social structures, technologies, cultures and physical structures, and as the products of power and political processes. Part III explores applications of organization theory to the practical matters of organizational design and change, and introduces the latest ideas, including organizational identity theory, process and practice theories, and aesthetics. An Online Resource Centre accompanies this text and includes: For students: Multiple Choice Questions For registered adopters: Lecturer's guide PowerPoint slides Figures and tables from the book

The Ernst & Young Business Plan Guide Eric S. Siegel, Brian R. Ford, Jay M. Bornstein, 1993-02-08 You'll find new tax information, a new section on how to include buying a company in your business plan, a new section that discusses the impact of information technology on keeping your business plan up-to-date, and a new section on what to include as attachments (for instance, resumes, profit analyses, agreements) to a business plan. Like its bestselling predecessor, this Second Edition covers all of the basics involved in creating a successful business plan. You'll find out why a business plan is used for more than just raising money. This Second Edition offers a revealing discussion of how both lenders and investors really evaluate a business plan. It deals with the various legal forms that a business plan can take, a decision that affects how much money can be eventually raised, the impact the federal tax code will have on the business, and the potential financial rewards for investors.
